ABSTRACT

The study aims emotional maturity of Primary school students in Krishna district. A random sample 200 primary school students in krishna district. The emotional maturity scale developed by Dr. Tara Sabapathy was used for assessing the emotional maturity of the participants. Mean, Standard deviation, Percentage of mean and 't' value were calculated. The study revealed the 90.05% students are having very high emotional maturity. The study also revealed there is no significant difference in gender and locality.
