ABSTRACT

The pandemic crisis of COVID-19 has wreaked havoc on every walk of life. No field has remained understated by its impact. The field of training also predictably has come under its telling effect. Training centers across the globe have moved from onsite to online platforms. The Indian academic scenario is also not very much different. Approximately 32 crore academic scholars have found themselves in the lurch. Nandalal the higher education institutions have faced the challenge commendably and have devised certain mechanisms to bail out the students and scholars from this difficult period.
